** ALASKA. 28247 CW, Feb 4 at 2302, VVV KL7L/B -- not in WGB list but lots in QRZ.com, has been all over including Falkland Is. Only a link to report KL7L/B, nothing more about it: ``KL7L Alaska flag Alaska, LAURENCE J "Flo" HOWELL, 5699 EAST FROST CIRCLE, WASILLA, AK 99654, USA`` (Glenn Hauser, OK, WOR)

** ALGERIA. 13855, Feb 3 at 2319, S9/+10 of dead air or maybe JBM, with flutter. Only thing listed in EiBi & Aoki is Ifrikya FM, Ouargla, at 1900-0100. I haven`t run across an axual modulated transmission from them in quite some time (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, Fri Jan 30 at 2305, on Maryland SDR S9+25, I tune in late to WRMI with RAE relay in Portuguese, as `Atualidade DX` is already in progress. BTW, why is this aimed at Oklahoma instead of Brasil? I`ve previously caught it on a Friday as well as a Tuesday. I recognize some of the DX `news` items as heard before from them, but not the same as earlier this week. Mali on 5995, Kyrgyzstan on 4010, Sri Lanka 125 kW in Bengali at 0030-0230, 11905 at 1630-1830 on 11750 in Sinhala --- both of which have been OFF SW for quite some time. Also gave email addresses to contact each station. 2307 some other media news, like the AER website for SW skeds; CNN Argentina on FM in General Roca, something about cell phones in Perú. Venezuela, thousand layoffs at stations? And credits DX.com.ar and Arnaldo Slaen. Later I try that website and get this: titled ``Acceso Extranet`` but nothing on the page except fields for user name and password to log in, no further info about what it is or how to get them. Another browser warns: ``Website blocked due to riskware -- because it may contain malicious activity.``!! Finally plugging an upcoming DX meeting in Pernambuco on Fri/Sat/Sun March 10-11-12 --- that can`t be 2026! and then they let slip that it`ll be in **2023**!!! So another 3-year-old DX olds program from RAE. Don`t you believe it. NÃO ACREDITE NISSO. BTW, I have no quarrel with respected DXer Arnaldo: he may have nothing to do with RAE re-broadcasting such outdated stuff from him. I hope he be aware of this, at least from my observations (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, Mon Feb 2, RAE via WRMI at 2300 multi-lingual ID reel over and over, S9+30/40 direct. Supposed to be in Portuguese at this time, and heard several times on Tue or Fri with DX olds; but recheck 2305 now programming in --- Japanese! By 2324 music is playing. Other dates has been in another wronglang, Spanish.

Meanwhile on 15770, PRES via WRMI, excellent with news about a Polish official refusing to recommend Drumpf for a Nobel Peace Prize, yes, still/again pushing for it, as ``he does not deserve it`` - IMHO, anyone openly coveting one should be automatically ineligiblized (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, Tue Feb 3 after 2300 timesignal, RAE via WRMI S9+40 in: Chinese! soon into a heartfelt song in Spanish; By 2312 music and segué, RAE multi-lingual ID filler reel, but then back to Chinese. Shux, no more DX olds in Portuguese. This relay segment keeps changing languages, Japanese yesterday, sometimes Spanish. Something`s bolloxed at Buenos Aires (Glenn Hauser, OK, WOR)

** ARGENTINA. 28365 USB, Feb 4 at 2312, LU5FMZ, CQ 10, working Alberta. QRZ.com: ``LU5FMZ Argentina flag Argentina, Martin Alejandro "Martin" Milazzo, Del Cauce 725, Roldán 2134, Argentina`` (Glenn Hauser, OK, WOR)

** BRAZIL [and non]. 6010.1 & 6010.0 approx., Feb 1 at 0743 contrary to my recent comments, seem to be two JBA signals direct making low het, some music, some talk, languages not clear, i.e. both R.

Inconfidência, Brasil and LV de tu Conciencia, COLOMBIA (Glenn Hauser, OK, WOR) see also COLOMBIA

** BRAZIL. 28430 USB, Feb 3 at 2305, ZV2SP, Tuka his name, in São Paulo, calling QRZ. QRZ.com: ``ZV2SP Brazil flag Brazil, LABRE – Liga de Amadores Brasileiros de Rádio Emissão, Brazilian Amateur Radio League – LABRE, 1934 – 2026 ∗ 92 years of LABRE commemoration, Brazil`` (Glenn Hauser, OK, WOR)

** BRAZIL. 28435 USB, Feb 4 at 2317, ZV2SP, contact in English. QRZ.com: ``ZV2SP Brazil flag Brazil, LABRE – Liga de Amadores Brasileiros de Rádio Emissão, Brazilian Amateur Radio League – LABRE, 1934 – 2026 ∗ 92 years of LABRE commemoration, Brazil`` (Glenn Hauser, OK, WOR)

** CANADA. Several NDBs audible, not just YXL, Feb 1 at 0720-0728 UT:
250 MCW kHz, dash and FO: 1600 watts at Flin FlOn MB;
300 MCW kHz, dash and YIV, 500 watts at Island Lake MB;
346 MCW kHz, dash and YXL, 500 watts at SiouX Lookout ON;
351 MCW kHz, dash and YKQ, 500 watts at WasKaganish QC;
353 MCW kHz, dash and PG, 25 watts at PortaGe la Prairie MB;
382 MCW kHz, dash and YPL, 1000 watts at Pickle Lake ON;
per listings at dxinfocentre.com/ndb.htm
(Glenn Hauser, OK, WOR) 353: see also USA [non]

** CANADA. 730, Feb 2 at 0615 UT, CKDM promos with calls, heartland?, plugging on radio, online, and player. Per NRC AM Log, it`s U2 10/5 kW, Dauphin MB, the word is Parkland, and also in Ukrainian. Of course, night pattern is supposedly cardioid with notch to the south; don`t you believe it. Dauphin is in SW MB, between Winnipegosis and Wasagaming (Glenn Hauser, OK, WOR)

** CANADA. 1290, re my log Jan 18 of CFRW with new Punjabi format, but no ID heard: the call has been changed, but effective date not given, so which was it then?:
NRC DX News Feb 10, Published Feb 2:
``FCC and CRTC Decisions and Applications
Call changes reflected in FCC LMS/Industry Canada databases:
1290 CFRW MB Winnipeg – Call change to CJRC
1290 CJRC MB Winnipeg – New call letters for CFRW, currently in test phase. Only the second call letter change in this station’s history, which began life in 1963 as CJQM, named after its co-owned Vancouver station CHQM`` (Glenn Hauser, OK, WOR)

** CANADA. 2598 USB, Feb 1 at 0747 UT, marine weather by artificial YL, S9+20; said next forecast would be at 1-0-0-0 AST. Per EiBi at 0737-0805 it`s VCP, Placentia, Newfoundland, site St Lawrence NL.

2749 USB, Feb 1 at 0749 UT, marine weather by same artificial YL voice as 2598,, S9 direct. Per EiBI at 0740-0800 it`s VCO Sydney NS, site Port Caledonia NS. Both these with best signals heard in a long time (Glenn Hauser, OK, WOR)

** CHINA. 9900, Feb 4 at 2323, Chinese S9+20/30 with very heavy echo, suspect two sites not in synch, rather than merely short/longpath. Aoki & EiBi show CNR1 jamming from Dongfang Hainan site vs R Taiwan Intl (Glenn Hauser, OK, WOR)

** CHINA [and non]. 13650, Jan 31 at 2330, relay via CUBA not off the air, but usual continuous Chinese music fill instead of Portuguese. 2358 announcing full sked of Portuguese, with Brazilian accent; for Europe, and then I copied for Africa, 2200 on 9410, 9685; America 2300 on 6100, 13650, 15600; 0000 on 6100, 9710, 15600; 1930-2000 on 11640, 13630 (Glenn Hauser, OK, WOR)

** COLOMBIA. 1310- and 1100+ kHz, Feb 2 at 0555, JBA carriers making hets from HJAK and HJAT as recently IDed; after a full 9/kHz bandscan uncovering no TA carriers (Glenn Hauser, OK, WOR)

** COLOMBIA. 6010, Jan 30 at 0725, Spanish S7/S8, so it`s LV de tu Conciencia, not R. Inconfidência, Brasil also on 6010. I don`t think it`s really on the air overnight, so if not sure of language don`t assume it`s Brasil at this hour. However, EiBi shows Brasil 24h and slightly offset to 6010.1; Colombia ``test`` at 2200-1000. Aoki also shows Brasil 24h, but totally misses Colombia, instead on 6010 the imaginary XEOI México which has been gone for years. WRTH 2026 also has Brasil 24h (Glenn Hauser, OK, WOR)

** CUBA. 5025, Jan 30 at 0726, R. Rebelde is off now tho often on and even modulating. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 11880 & 15140, Jan 29 at 2005-2024, dead air in English from RHC where something`s always wrong (Glenn Hauser, OK, WORLD OF RADIO 2332)

** CUBA. 15230, 15140, 11880, 11760, Jan 30 at 2014 check, no signals from RHC in English or anylang. Power outage? (Glenn Hauser, OK, WOR)

** CUBA. 15230, Jan 31 at 1545, S6/S8 deadair, must be RHC. But the usual 15140 & 11760 are absent, not 11880 either. All RHC frequencies were absent Jan 30 afternoon, but I didn`t get around to checking further into UT Jan 31, nor the CRI relays like 13650, 5990. Anyone notice whether on or not? At 1956 check no RHC frequencies audible even with dead air (Glenn Hauser, OK, WOR)

** CUBA. 15230, Sun Feb 1 at 1558, only RHC on air, JBA S5/S6 direct, no 15140, 11880 or 11760. 1601 IS and opening weekly Esperanto. At 1615 into Georgia remote, S9/+10 with song in Esperanto about ``La Mondo``. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 11760, Feb 2 at 2320, RHC S9+30 of nothing but windhowling; 11880 clear dead air S9+20, nothing on 15 MHz, but CRI `Portuguese` music relay on 13650 (Glenn Hauser, OK, WOR)

** CUBA. 11880, Feb 3 at 2316, RHC deadair S9+20, and 11760 DA S9+30 with windhowl. 13650, Feb 3 at 2318, the CRI Portuguese [non] relay is OFF (Glenn Hauser, OK, WOR)

** CUBA. 11760, Feb 4 at 0737, RHC still on with windhowl, S7/S9, Spanish seems about béisbol (Glenn Hauser, OK, WOR)

** CUBA [non]. 15380, Feb 4 at 1549, no open carrier yet direct from R. Martí; maybe they heeded my questioning wasted kWh? Already on and modulating: 11860, 11930, 13570, 13820. Next chek at 1713 into Knoxville SDR, same except 15380 on, 11860 off (Glenn Hauser, OK, WOR) See also USA

** CHILE. 28422 USB, Feb 3 at 2303, CE7VP, QSOs in rapid colloquial Spanish, with W3QCP, a KD2, etc. QRZ.com: ``CE7VP Chile flag Chile, Javier "Javi" Capdebilla A., P.O. Box : 42, Quellon, Chiloe Island, 5790000, Chile`` (Glenn Hauser, OK, WOR) QRZ.com page lots of nice scenic photos

** ESWATINI. 11880, Feb 1 at 1520 somelang here VP instead of RHC. Must be listed TWR Swaziland as sked in Somali 1500-1530. Could be longpath. I hear it mispronounced by newscasters; it`s Eswátini (Glenn Hauser, OK, WOR)

** JAPAN. 28497 USB, Feb 2 at 2311, JF1EHM asking if anyone is copying him. Logged before on 10m last May, Dec, Jan: Ishida Hiroaki in

Yokohama (Glenn Hauser, OK, WOR)

** MADAGASCAR. 11965, Jan 30 at 2013, S9/+25 gospel huxter in English, MWV could almost pass for a N American station (Glenn Hauser, OK, WOR)

** MALI. 5995, Jan 30 at 0724, African music and French?, S8/S9, better than usual this late. Bamako sunrise now at its latest during the year 0658 UT, and varies little at 12.65 degrees north, to 0612 in summer (Glenn Hauser, OK, WOR)

** MEXICO. 550, Jan 30 at 0733, romantic song in Spanish, unusual on this frequency; as I tune in, fades up better with full ID including street address, and 25 kW on 91.3, in Ciudad Cuauhtémoc, Chihuahua. Interesting background info in the IRCA Mexican Log:

``550 XEPL Chih Ciudad Cuauhtémoc 5000 150 91.3 La Líder, La Súper Estación, Tu Mejor Compañía 1100-0800 VAR/IND -- //XHEPL 91.3FM. Staying on AM per IFT. Active
on AM as of 2/25 (logged by DXer), but may be operating intermittently. Station confirmed 7/23 that the AM was on. German Mennonite and native language programs in the evenings. During this programming they sometimes give five 800 Hz time pips shortly after the top of the hour. The current (8/20) schedule on the station's web site lists a broadcast day of 1100-0800, with Mennonite programming in the evenings (6:50pm-11pm local time). Still included in 7/25 IFT list`` (Glenn Hauser, OK, WOR)

** MEXICO. 800 kHz, Feb 1 at 0759 UT, distorted audio QRMing KQCV OKC Bott gospel huxtering. Have been noting this for long time, as assumed to be XEERG, Ojo de Agua, NL, as tracked down months ago in daytime via remotes. Or not? Feb 1 at 1705 UT into Monterrey SDR, clear audio. Maybe it`s a night thing when 2.5 kW transmitter instead of 10 kW day? (Glenn Hauser, OK, WOR)

** MEXICO. 800, Feb 3 at 0601, Mex NA into Monterrey SDR, somewhat distorted and noisy, at 0611 mostly noise, so it seems to vary, i.e. XEERG, Ojo de Agua, local to Monterrey, source of QRM to KQCV OKC (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475, Feb 2 at 0545, thintonations of Josiah JBA S9 on Station YHWH (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 9025 AM, Feb 4 at 1551, the `presidential pirate` is on at its signature frequency, mentioning April 12, 1945, the date of FDR`s death, and then to JFK`s inauguration Jan 20, 1961, and the start of his speech. I`m just beginning a 9 MHz bandscan, as always upward from 8989, so I`m bound to hit this when it`s on; continued bandscan but by 1554 recheck, 9025 already off. Last logged Dec 11, 2025 at same time of day, note! 1554-1600* A few HFU reports say this goes back to 2018y. UDXF has numerous logs of 9025 as a USAF frequency (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 12155 USB, Jan 29 at 2035, pirate music again today on 5 kHz below missing WWCR, MIX RADIO INTERNATIONAL ID vertically along the right edge of the waterfall, as pointed out by Eric Fetters-Walp, via the WD3C remote in Maryland which I then check, S8/9+5, but JBA direct. He reported:
``[WOR] Mix Radio International on 12155 USB as of 2015 UTC --- For at least the second time this week, pirate Mix Radio International's broadcasting up on 12155 USB. It's not audible out west here, but it's strong via the SDR in Fair Hill, Maryland, with the station ID spelled out in the waterfall image. Today, Mix is playing classic rock and R&B extending back into the 1950s. Eric Fetters-Walp, Lake Stevens, Washington`` (Glenn Hauser, OK, WORLD OF RADIO 2332)

** OKLAHOMA. 255 MCW kHz, Feb 4 at 0713 UT, SW, NDB at StillWater is on! Not a trace of it on nightly bandscans since first noticed missing on Jan 2. RNA list says it was last logged on 2025-12-23; 50 watts, nickname `GABEH` - Has had protracted offages before (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 5140 USB, another Wednesday at 1500 UT Feb 4, so time for another OK Emergency net: YL NCS again WSHM692, also utters different call KM4UJS, so can look her up as ham at ARRL/FCC search: ``Young, Breanna M, KM4UJS, 21 Pueblo, Edmond, OK 73013, Licensee ID: L02030576, License Class: Technician`` - S9+15 about equal to noise level. Counts 12345, 54321. Each week there is a different selexion of stations in roll-call - most do not reply, but does she know which ones each week should not even be called? Compare to my reports last weeks. This week, copied as best I can, all calls fonetikaly, twice unless answered first; no one else mentions a ham call:
WQYW443 Beckham County
WQZT582 Broken Arrow
WQSY836 where? Byng per Don Moore, just N of Ada toward Seminole
WNPV700 Durant, Bill answers, best signal as usual
WQYW883 Moore, answered JBA
KNGR728 Pontotoc County
WPFY721 Seminole, answer to Breanna
WNBM839 Stillwater
WNBE830 Jefferson City MO
Finished at 1507, but any others?
WNBM839 chex in late, Stillwater
(Glenn Hauser, Enid, WOR)

** OKLAHOMA. 93.1 & 95.1, Jan 29 at 1615 UT, the two unlicensed carriers sometimes with music, are finally both off when tuned in downtown Enid, still icy, while 1680 VDJR is still on (Glenn Hauser, Enid, WOR) Same Feb 4 circa 2045

** POLAND [non]. See ARGENTINA [non] WRMI

** ROMANIA. 9420, Feb 2 at 0547, JBA carrier, reminds me of Voice of Greece once a major frequency of; but it`s RRI in Russian via Tsiganeshti per EiBi at 0530-0600 (Glenn Hauser, OK, WOR)

** SPAIN. 12030, Jan 30 at 2010 check, REE air is not dead, but very weak, better on 9690, best on 17715 (Glenn Hauser, OK, WOR0

** SPAIN. 17715, Jan 31 at 1958, REE S9+20 direct tho supposedly for S America, while there are little or no signals on 9690 to N Am, 12030 ME, 17755 Af - but it`s just a silly ballgame apparently from the excessive enthusiasm (Glenn Hauser, OK, WOR)

** SPAIN. 17755, Feb 3 at 2320, not even a JBA carrier from REE`s African frequency, while 17715 is S9+10/20 for S America, 9690 & 12030 also VG and modulating. So 17755 must be OFF (Glenn Hauser, OK, WOR)

** SPAIN. 12030, Wed Feb 4 at 2300, TS and right into weekly token English opening from REE. This ME frequency at S9+10/20 axually sounds slightly better direct than the S9+20/30 NAm frequency 9690, with less fading. 17715 for SAm even stronger S9+30/40; and still no signal on 17755 for Africa. M&W hosts both on this week; among first items previewed: ICE raids in Minnesota. 2319 report from Lebanon correspondent (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Jan 30 at 2320, VOT English not off the air, Efsun speaking JBA into Maryland SDR, S8/9+20 into UTwente (Glenn Hauser, OK, WOR)

** TURKEY. 6125, Feb 1 circa 0410, VOT English not off the air, fair direct, but no signal on // 7285 for ME, off or notprop? BTW, in WRTH 2026 International pages, 627, TÜRKIYE comes before TAIWAN since U-umlaut precedes A in their alfabet (Glenn Hauser, OK, WOR)

** TURKEY. 9660.018+, Sun Feb 1 at 1742, VOT Engish with `Letterbox`, S9+10/25 into UTwente, with rapid clickery QRM. Cemre says it`s been a hectic week at the office, just remembered she had to send a QSL card to someone. Ireland, Italy, Malaysia, India, Panama this week: 1) Mr Francis Loler??, Dublin, Ireland: listened via UTWente, 5960 has Chinese QRM, and is sometimes missing, as per some DX program[!]. 2) Simon? --?, Rome, Italy, heard Italian on 11970. 3) Mr Mohammed Breyel?, KL, Malaysia, 9490 at 1630 in Persian. 4) Siddhartha Papajarjee, India, heard 9660. Is World Leprosy Day celebrated in Turkey, how many lepers? It`s the last Sunday in Jan, only by advocates, very few, less than 5 annually. 5) Ricky Hein, South Dakota continues to complain about bad reception on 5960, 6125, sorry they have not been able to improve it. 6) Víctor Gutiérrez, Panamá, English on 7265 - Cemre does not question this, presumably meant 7275. 7) SWL club in India, some on own rx, or via UTwente, 0400 on 6125 - which is to NAm! 1757 closing, 1758 theme (Glenn Hauser, OK, WOR)

** TURKEY. Correxion? about which frequency reported in Panamá: time not heard, but if it were English as I think mentioned, would be 7285 not 7275 at 0400. However there is Spanish at 0200 on mentioned 7265 (Glenn Hauser, OK, WOR)

** TURKEY. 9650, Feb 2 at 0548, VOT Turkish with music, S9+10/20 direct. Note: for AM signals I am now endeavouring to note S-meter readings when in AM mode even if I am preferring to listen in USB (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Feb 3 at 2256, VOT not off the air, IS & IDs in English, S9+10 direct but = local high line/noise level (Glenn Hauser, OK, WOR)

** TURKEY [non]. 5960, Feb 4 at 2258, no signal direct from VOT; and at 2337 into UTwente, nothing but Chinese, VOT off the air. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** U S A. 293 MCW kHz, Feb 2 at 0722 UT, dominant NDB FBY, FairBurY NE, alternating with much weaker TOR, TOrRington WY (Glenn Hauser, OK, WOR)

** U S A. 293 MCW kHz, Feb 4 at 0714 UT, TOR, NDB at TORrington WY alternating / mixing with and atop FBY FaiRburY NE. FBY is usually far stronger or alone (Glenn Hauser, OK, WOR)

** U S A. 323 MCW kHz, Jan 31 at 0719 UT, ND beacon OUK is JBA, new one for me. Classaxe RNA list: CalhOUn GA, 24 watts, supposedly decommissioned in 2019 but still transmitting, last report 2026-01-18. Calhoun is in NW GA, just south of Dalton along I-75 (Glenn Hauser, OK, WOR)

** U S A. Re 323 kHz, beacon OUK in Calhoun GA: this town is also subject among others of current `Frontline` about PFAS: ``Contaminated: The Carpet Industry`s Toxic Legacy``: https://www.pbs.org/wgbh/frontline/documentary/contaminated-the-carpet-industrys-toxic-legacy/
(Glenn Hauser, OK, WOR)

** U S A. 335 MCW kHz, Feb 4 at 0721, JBA NDB, TIK? Last letter definitely K. RNA list suggests: BK, `CHRLZ` Brookings SD, 25 watts which I have heard before, Oct 6 & Dec 5, 2025; or CK,`Snuff` Clarksville TN (Glenn Hauser, OK, WOR)

** U S A. 338 MCW kHz, Feb 4 at 0723 UT, RYN, 400 watt NDB at `Ryan` Tucson AZ (Glenn Hauser, OK, WOR)

** U S A. 342 MCW kHz, Feb 4 at 0724, two JBA NDBs mixing, possibly including _MT -- RNA and DXinfocentre show only one on 342 is ST, 25 watts at St Cloud MN (Glenn Hauser, OK, WOR)

** U S A. 344 MCW kHz, Jan 31 at 0720 UT, JL mixing with OA? No, it must be JA. Axually tuned to 342 USB. JL Joplin MO, and JA Jaxonville FL 400 watts (Glenn Hauser, OK, WOR)

** U S A [non]. 353 MCW kHz, Feb 4 at 0725, dash and PG, 25 watt NDB at PortaGe la Prairie MB. Notable that LI, 25 watts at LIttle Rock AR, which used to be regular on 353, has vanished; removed from dxinfocentre roster, and RNA list says 400 watts last logged 2025-11-10 (Glenn Hauser, OK, WOR)

** U S A. 383 MCW kHz, Feb 3 at 0730 UT, CNP, 25-watt NDB at Chappell NE; only somewhat unusual one in bandscan but already heard Jan 11 (Glenn Hauser, OK, WOR)

** U S A. 397 MCW kHz, Feb 2 at 0744 UT, tuned to 395 USB, regular CA, 25 watts at `Harves` Newton KS, on 395, mixing with JE, `Algoa`, JeffErson City MO (Glenn Hauser, OK, WOR)

** U S A. 414 MCW kHz, Feb 2 at 0746 UT, GRN, GoRdoN NE (Glenn Hauser, OK, WOR)

** U S A. 28216.5 CW, Feb 4 at 2306, beacon ID N7MA - still missing from WGB list, as explained from QRZ.com in my Nov 3, 2024 log: Mark T Avakian, Cataldo, Idaho (Glenn Hauser, OK, WOR)

** U S A. 28250 CW, Feb 4 at 2310, slow beacon DE KI6MTV/B: WGB list: ``28250.0   KI6MTV/B - Shingle Springs CA USA CM98mq - #0 (06 Nov 2024) Note: ID only - Slow keying`` and QRZ.com: ``KI6MTV USA flag USA, Michael R Hislop, PO BOX 121, SHINGLE SPRINGS, CA 95682, USA`` - have heard it before (Glenn Hauser, OK, WOR)

** U S A [non]. 9310, Feb 2 at 1534, S9/+20 of music direct instead of VOT Korean via PHILIPPINES. At times sounds like jazzy variations on VOA theme, with the 3 notes V-O-A in jingles; tsk3. Pauses and starts over at 1535. Still just music fill at 1555 into KFS NW; 1600 s/off with Yankee Doodle Dandy. The SSOB direct except for blasting 9930 WTWW, and not much else except 9660 CNR1 jamming vs Taiwan (Glenn Hauser, OK, WOR)

** U S A [non]. 9310, Tue Feb 3 at 1529, VOA s/on with Yankee Doodle Dandy, but cut short before last few notes at 1530 for dead air, rather than starting V of Trump in Korean. By 1531 into fill music, which restarts several times, no talk in Korean or non-Korean heard by 1556 then listening via KFS NW, until 1600 VOA S/off and off. At least the second day this has happened. Claims to be in Washington DC, but site is really Tinang, PHILIPPINES. Something`s very wrong at VOT (Glenn Hauser, OK, WOR)

** U S A [non]. 9310, Feb 4 at 1553, VOT via PHILIPPINES has resumed Korean talkmod, after music fill yesterday and yesteryesterday (Glenn Hauser, OK, WOR)

** U S A. 15380, Jan 30 at 1545, S9+25/35 of open carrier, 250 kW GB warming up for R. Martí from 1600. Is it really necessary to burn at least 62.5 kWh every day with no modulation? Occasional beeps, from else? (Glenn Hauser, OK, WOR) see also CUBA [non]

** U S A [non]. Some delayed reports of WORLD OF RADIO via AM Italia:
Medium Wave News Feb 2026:
``Sheigra DXpedition Report {Scotland} 16th to 28th November 2025 -
with Dave Kenny & Alan Pennington: 1323 2130 21/11 IRRS Italy World of
Radio SIO 233``

ARC mv-eko 2 Feb:
``1323 18.1 2000 IRRS, Villa Estense, World of Radio by Glenn Hauser.
FB Franck Baste, St. Bonnet de Rochefort, France - Rx: SDR Perseus,
Ant: Loop ALA 1530LNP``

** U S A [and non]. WORLD OF RADIO 2331 monitoring; confirmed UT
Thursday January 29 at 0030 on WRMI 9395, S9+25 into Georgia SDR.

Also confirmed UT Thursday January 29 at 0130 on WRMI 5010, S6/S9 into
Maryland SDR altho aimed south.

Also confirmed Thursday January 29 at 1730 on SW Radio, Germany,
3975.000, S9+5 into UTwente, algo on 6160.001 with heavy ACI; but into
recommended Bedford UK SDR, 6160 is S9 in the clear.

(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2332 monitoring: confirmed Friday January 30 at 2302 the2300 on WRMI 9955, S9+10/20 into Maryland SDR.

Also confirmed Friday January 30 at 2352 the 2330 on SW Radio Gold, Germany, 3975.002, S7/S8 JBA into UTwente.

Not confirmed UT Sat Jan 31 at 0400 on WTWW 5085, as it remains totally off the air. However I was informed that 2332 was ready to play should it be on.

Confirmed Saturday January 31 at 1553 the 1530 on SW Radio Gold, Germany, into UTwente: 3975.001 S8/S9 and 6160.001+ S9/+10.

Also confirmed Saturday January 31 at 1630 on WRMI 9955, S9/+20 into Knoxville SDR.

Also confirmed Saturday January 31 at 1700 on WRN via WRMI 9395, S7/9+10 into Knoxville SDR; rough start again, ``Welcome to Encore...`` before pause and play WOR.

Also confirmed Saturday January 31 at 1718 the 1700 on WRN via WRMI 7730, S7/S8 into Miramar FL SDR - after NO signal direct nor into several other remotes in SE USA. 7730 is always VP if not JBA here to the NW as it`s aimed NE; but so is 15770, easily heard. Is Miramar getting 7730 by direct/groundwave? Approx. distance 149 km = 93 miles to the SSE of Okee. It`s surely too clear and loud to be backscatter. Next:

2030 UT Saturday SW Radio, Germany 3975;
2030vUT Saturday WA0RCR 1860-AM [2000/2200];

1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];

1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2332 monitoring: not confirmed the 2030v on WA0RCR, 1860 AM, MO, Sat Jan 31, trying closest remotes to St Louis in MO, IL, TN, but something JBA in noise maybe me at 2110 into N9AZZ SDR, Cartersville IL.

Confirmed Saturday January 31 at 2030 on SW Radio Gold, Germany, 3975.002-, S9/+15 into UTwente [last week this aired at 2130 by mistake].

Also confirmed Saturday January 31 at 2030 on WRMI 9395, S9+30/20 into Georgia SDR.

Also confirmed Saturday January 31 at 2100 on WRMI 9395, repeating immediately.

Also confirmed Saturday January 31 at 2111 on WRN Europe stream.

Also confirmed Saturday January 31 at 2200 on WRMI 9395, S9+25 into Georgia SDR.

Also confirmed Saturday January 31 at 2230 on WRMIs 17790 S7/S8 and 15770 S9+20 both direct.

Also confirmed UT Sunday February 1 at 0030 on NEXUS/IBA/IRN stream.

Also confirmed UT Sunday February 1 from 0448 UT the 0415v on WA0RCR, 1860 AM, MO, S9+15/20 into Georgia SDR but with considerable crashing from storm toward Bermuda.

Also confirmed Sunday February 1 at 0734 the 0730 on WRN via WRMIs direct: 5850, S9/+40; 7570, S9+20 but undermodulated with some hum; 7730 JBA S6; 7780 S5/S8.

Also confirmed Sunday February 1 at 1130 on WRN via WRMIs 7570 S9+20, and 7780 S7/S8 direct. Next:

2000 UT Sunday IRRS SW via AM Italia 1323;
2230 UT Sunday SW Radio, Germany 3975;
2330 UT Sunday WRMI 9455 to NW;
0000 UT Monday WRMI 9395 to NNW;
0030 UT Monday WRMI 7780 to SW;
0930 UT Monday SW Radio, Germany 6160;
2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.

(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2332 monitoring: confirmed Sunday February 1 at 2017 the 2000 on IRRS SW via AM Italia, 1322.998+, S8 into UTwente.

Also confirmed Sunday February 1 at 2100 on WRN Europe stream.

Also confirmed Sunday February 1 at 2230 on SW Radio Gold, Germany, 3975, S9+5/10 into Bedford UK SDR, nothing into UTwente.

Also confirmed Sunday February 1 at 2330 on WRMI 9455, S9+47 into Georgia SDR.

Also confirmed UT Monday February 2 at 0000 on WRMI 9395, S9+35 into Georgia SDR.

Also confirmed UT Monday February 2 at 0030 on WRMI 7780, S9+10/20 into Georgia SDR, S9+20/30 into S Texas SDR at 0040.

Also confirmed UT Monday February 2 at 0401 on Area 51 webcast only, with WBCQ 5130- already signing off. Next:

2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2332 monitoring: confirmed Monday February 2 at 2030 on SW Radio Gold, Germany, 3975.001-, S9/+10 into UTwente. Preceded by DX news in German about WTWW - ve-te-ve-ve. Next:

0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2332 monitoring: confirmed UT Tuesday February 3 at 0330 on WRMI 7780, S7/S9 into S Texas SDR.

Also confirmed Tuesday February 3 at 1400 on WRMI 9955, S8/S9 direct.

Also confirmed Tuesday February 3 at 1517 the 1500 on WRMI 9955, JBA S5/S7 direct, but at 1526, S9+35! into Georgia SDR.

Also confirmed Tuesday February 3 at 2100 on IRRS SW via AM Italia 1322.998+, S8 into UTwente. Next:

0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2332 monitoring; confirmed UT Wednesday February 4 from 0031 on SW Radio Gold, Germany, 3975.001+, S7/S8 into UTwente.

Also confirmed UT Wednesday February 4 at 0130 on WRMI 9395, S9/+10 into Knoxville SDR.

Also confirmed Wednesday February 4 at 2030+ on SW Radio Gold, Germany, 3975.001, S9+10 into UTwente.

Also confirmed Wednesday February 4 at 2200 on WBCQ 7490 -19 Hz, S8/9+10 into Maryland SDR, following TOMBS chopped off for WBCQ promo and ID, then WOR. Next:

0030 UT Thursday WRMI 9395 to NNW {confirmed};
0130 UT Thursday WRMI 5010 to S {confirmed};
1730 UT Thursday SW Radio, Germany 3975 & 6160.

As a noncommercial public service program, financial support appreciated. Thanks this week to Gary Drew, Cranfield UK, for a contribution via PayPal not necessarily in US funds to woradio at yahoo.com And says: ``Hi Glenn. many thanks for the regular programmes of World of Radio and the legacy of archives online. Long may it continue. Wishing you Good Health and happiness for 2026 from Gary and on behalf of everyone at Laser International``

One may also contribute by MO or check on a US bank to
Glenn Hauser, P O Box 1684, Enid OK 73702
(Glenn Hauser, OK, WOR)

** U S A. Pre-`AAAWWW` chex of WBCQs, UT Sat Jan 31 at 0055, via Maryland, Vermont SDRs, NO signals on 3265, 5130, 6160, 9330, ONLY on 7490. Still so at 0126 check. FKB`s tone cue wrapup warning comes not a minute, but half a minute before 0100:00, so he is chopped for canned ID before he can finish his contact info. NO advisory that following aired originally, but it *is* a rerun of UT Jan 10, since Allan talx over theme at first, ``Absolutely amazing this radio thing that we do...`` and single-word exclamation later, ``blaze``? Never mind; see my report of that date (Glenn Hauser, OK, WOR)

** U S A. 4840 & 5935, Jan 29 at 0519, WWCR still off the air. 12160 & 13845, Jan 29 at 1712, also still off the air, presumably powerless. Ditto at 2035 (Glenn Hauser, OK, WORLD OF RADIO 2332)

** U S A. 12160 & 13845 & 7490, Jan 30 at 1547, WWCR still totally off the air. Also at 2010 no 12160 or 13845 (Glenn Hauser, OK, WOR)

** U S A. (12160), Sat Jan 31 at 1800, this WWCR remains off the air, and also 13845, but stream is working for WWCR-2 with the `Talking [sic] Machine Show` of ancient music (Glenn Hauser, OK, WOR)

** U S A. 13845 Feb 1 at 1557, and 12160 after 1600, WWCRs still off the air (Glenn Hauser, OK, WOR)

** U S A. 4840 & 5935, Feb 3 at 0725, WWCRs still off the air;

likewise 12160 & 13845, Feb 3 at 1635. Like2wise around 2300. How much longer powerless? (Glenn Hauser, OK, WOR)

** U S A. 4840 & 5935, Feb 4 at 0730 UT, WWCRs still off air. Likewise 12160 & 13845, Feb 4 at 1650. How much longer? (Glenn Hauser, OK, WOR)

** U S A. 9455, Feb 4 at 2301, since it`s Wednesday, WRMI not RAE but VORW, following DW Afrika via WRN, FSN. John explains about WWCR 4840 where he also has some hours, still off the air since Jan 24 or 25? They say transmitters, antennas not destroyed, but are awaiting thaw before undertaking some other repairs. Doubts they will be back on even by Mon Feb 9. Fears he will lose audience due to the dead air (Glenn Hauser, OK, WOR)

** U S A. 15150, Fri Jan 30 at 1256, WMLK on already, S9+25/30 attempting to sing with piano. EiBi shows 12-17 except Sat, only station on 15150. Don`t you believe Aoki showing outdated sked of 04-09 UT except Sat. It and 15770 WRMI now are the OSOB (Glenn Hauser, OK, WOR)

** U S A. 540 kHz, Feb 2 at 0602 UT, partial ID as ``99.9 FM, -- broadcasting station``, into Fox news. In NRC AM Log, 99.9 and Fox lead only to KNMX Las Vegas NM, U4 5000/20 watts with K260DJ. Just also heard lowpowered 770 KKOB, and hipowered 660 KTNN (Glenn Hauser, OK, WOR)

** U S A. 660, Feb 2 at 0601 UT, S9/+10 Navajo chanting owns the frequency, KTNN AZ/NM obviously not direxional away from NYC. Again at 0616 check (Glenn Hauser, OK, WOR)

** U S A. 770, Feb 2 at 0600 UT, ``KKOB Albuquerque`` ID, JBA vs QRM mainly WABC. First time I`ve managed KKOB under current degraded circumstances. Is this still in effect? From FCC LMS:

``ENGINEERING STATEMENT:

This Engineering Statement has been prepared to support an application for modification and extension of Special Temporary Authority 0000269423, for Radio Station KKOB, 770 kHz, Albuquerque, NM, licensed to Radio License Holding CBC, LLC, which expires on October 15, 2025.

Because of the imminent dismantling of the remaining antenna tower at the licensed site of KKOB, Special Temporary Authority is requested to operate from a temporary site located at NL 35 04 04.5 by WL 106 46 46.8. This antenna tower is 196 feet tall (above ground) and because of its height is not registered in the Commission’s Antenna Structure Registration System.

Operation is proposed with 1.0 kW day and night. The antenna tower will be fed with a single flared skirt wire. The Inverse Distance Field has been approximately determined by NEC4 calculation to be 197.75 mV/m/km for 1 kW operation. The antenna will also be provided with 6 to 8 “ground” radials extending to at least 100 feet from the tower base.

The tower supports the FM transmitting antenna of KABQ-FM and the auxiliary antennas of KABQ-FM, KYLZ-FM, and KBQI-FM. A nearby antenna tower is the location of the main antenna for KYLZ-FM. There are no nearby licensed AM broadcast facilities. The tower base is enclosed by a fence which is 4 meters or more from the structure, exceeding the requirement of Supplement A to OET-65. If necessary measurements will be made at the time of installation to determine the ground level E and H fields of the FM facilities outside the fenced area.
September 3, 2025
Benj. F. Dawson III, P.E.

Hatfield & Dawson Consulting Engineers, LLC`` (Glenn Hauser, OK, WOR)

** U S A. 790, Feb 1 at 0800 UT, ID as ``104.7 and  Mighty 790 KSPO``?, into CBS news // 780 WBBM not synch. Must be KFGO Fargo ND as everything else fits, U2 5/5 kW. Night pattern has minor lobe to S, notch to the SW, site right along the River, so is it really in MN? See my last log of April 11, 2025, where this was still undetermined (Glenn Hauser, OK, WOR)

** U S A. 820 kHz, Jan 29 at 0742 UT, WBAP has CCI of almost equal strength, Florida ads, mentions 96.7 and 98.3, sports talk. That makes it WWBA Largo FL, U4 50/1 kW, per NRC AM Log, CP for U2 10000/230 watts, and group The Big 8, which consist of those three frequencies, with W252DF on 98.3 and W244EG on 96.7. It`s certainly not just 230 or even 1000 watts, but day power, and pattern? Day has notch toward Dallas, but plenty lobe just north of that; night major lobe SW into Gulf (Glenn Hauser, OK, WOR)

** U S A. 820, re my report of WWBA Largo FL QRMing WBAP, Tim Hall replies:
``Just 5 minutes before reading your email I found a relog of WWBA on this year's Border Inn recordings. At the time of my DXpedition (end of October), they had just renewed their STA for U1 2000/200 at the site of co-owned WHBO-1040. They've had this STA for years so I would bet it is still in effect. Both WWBA-820 and WHBO-1040 (which also has had a low-power STA for several years) get out surprisingly well. I have to wonder if both stations might be running their non-directional STA day powers all night. 73 Tim`` Hard for me to believe this be only 2 kW vs 50 kW WBAP (Glenn Hauser, OK, WOR)

** U S A. 1070, Feb 2 at 0610 UT, timecheck for 10:10 – must be KNX Los Ángeles, not too unusual, but did not notice any QRM from KFTI Wichita, or LAH as it`s been off-frequency to the minus side. MWoffsets:
``1070 1069,9761 USA KFTI (Wichita, KS) 2024-12-25``
I did not realize it was totally off:

NRC DX News Feb 10 published Feb 2: ``Stations that have notified the FCC that they are silent: 1070 KFTI KS Wichita – Silent Jan. 16, damage from copper thieves``

IRCA DX Monitor Feb 7 published Feb 2:
``1070 KFTI Wichita, KS was classic country, now silent, old slogan: “Classic Country 1070”, new: unknown (station is temporarily off-ye ed)

Mike Sanburn sends along the following dated 1/27/26:
https://radioinsight.com/headlines/336899/copper-theft-transmitter-damage-silence-kfti/

Copper Theft and Transmitter Damage Silence KFTI, by Lance Venta, January 27 2026

Summit Media’s “Classic Country 1070” KFTI Wichita KS has been off the air since January 16 following significant damage to its transmission facilities. A filing with the FCC states that KFTI’s tower array was damaged because of theft of copper components, compromising the ground system and related infrastructure, while its transmitter experienced substantial equipment failures and requires extensive repairs and replacement of multiple components before operation can be restored.

KFTI, which utilizes Westwood One’s 24/7 Country programming, continues to stream online. The station registered a 0.9 share in the November 2025 Nielsen Audio ratings.

INSTANT INSIGHT: Nowhere on the station’s website does KFTI explain to

listeners that it is off the air. It also has no social media platform where to inform listeners of how to find them as once again radio attempts to just push its audience away`` Yet to check in daytime for any other signal or KFTI resumed (Glenn Hauser, OK, WOR)

** U S A. 1070, Feb 3 at 0721 UT, after PSA about how pedestrians should look out for traffic, KHMO ID, and no sign of KFTI Wichita. Hannibal distance is 677 km = 421 miles, site definitely on MO side of river. KHMO night pattern is NNW/SSE with a notch thisaway toward Wichita; day pattern almost circular, pulled in somewhat thisaway. In daytime at 1632 Feb 3, JBA carrier via E/W longwire, no signal into DX-398. KFTI Wichita still missing. If not a birdie, what could it be? Maybe 50 kW Memphis, WDIA? Day pattern slightly oval favoring N/S but plenty thisaway. Feb 3 at 2321, JBA carrier, no KFTI; slightly stronger on E/W loop than N/S shortwire (Glenn Hauser, OK, WOR)

** U S A. 1280, WNAM, Neenah WI: my report for QSL on DX tests, along with my logs of Dec 30 and 31 as in:
https://www.w4uvh.net/ghlogs_2025_1225_1231.txt

``Steve, I was glad to publicize the WNAM DX tests in advance on my World of Radio program and in my WOR iogroup. I did hear it myself as detailed in my published logs at the time, but did not make a recording. I would appreciate a QSL, for reception via the N8BTR remote if not direct to Enid OK, which I also accomplished. If this does not meet your requirements, I understand. Thanks for doing the tests! My equipment for direct reception: NRD-545 receiver and 100` E/W longwire; also DX-398 with internal antenna for directionality. Best wishes, Glenn Hauser`` Reply:

``Thanks Glenn, I appreciate the report! You are confirmed and I am mailing a QSL card to your attention this week. Hopefully it doesn't freeze to the Interstate on the way down. The morse code within the test was
`1280 WNAM NEENAH WISCONSIN FAREWELL DX HOBBYISTS DECEMBER 31`
Steve Edwards, Promotions Manager | Program Director | Cumulus Media, M: 920.230.0810 - 491 S. Washburn Street, STE 400, Oshkosh WI 54904, cumulusmedia.com``

And here it is:

or #161 via:
http://worldofradio.com/QSL.html
(Glenn Hauser, OK, WOR)

** URUGUAY. 28500 USB, Feb 3 at 2309, CX6RW, Ban in Punta del Este, working UStations. QRZ.com: ``CX6RW Uruguay flag Uruguay, ESTEBAN "BAN" PEREZ, Calle Amatista y Galena Brio. La Fortuna MALDONADO, Chalet "Virgen del Rosario" Tel Cell. & WhatsApp +598 99 908 514, MA 20000, Uruguay`` (Glenn Hauser, OK, WOR)

** VATICAN [and non]. VR, Jan 30 at 1551 direct on 13830 S9+20/25 // and synch with 15565 S9+20/30, on two receivers, NRD-545 and DX-398. I`m standing by for the ~1600 transition from Amharic to Swahili, and for 13830 to switch from SMG to MADAGASCAR relay, making them out of synch. At 1559 ID, ``LIX`` and IS. At 1559.5, 13830 cuts off and soon comes back much weaker S8/S9 with a delay. But 15565 also suddenly weakens tho no break perceived. It switches antenna beam slightly from 139 to 149 degrees which should not make that much difference (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 6180 kHz, Feb 2 at 1527, turning on radio last tuned to Brasil by 0800, surprised to hear something this late, Chinese? Per EiBi, CNR1 jamming from site f = Fuzhou vs R. Taiwan Int`l. Elsewhere on 49m, JBA carriers on 6145, 6075 also listed Chinas vs Taiwans.

These were almost 2 hours past LSR in Enid 1332 UT (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9665-9670-9675, Feb 2 at 2325, awful roar in this area, does not sound like regular DRM and none is scheduled in HFCC between 9655 and 9680, which also has nothing but a 2 kW in Germany 24h on 9670, i.e. Channel 292. Nor in EiBi, Aoki (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Re 9670 noise: ``I have noted the same phenomena, 0155 UT in 6825-6840-6855 approx. It is similar in appearance in SDRUno to DRM, but as you say is not DRM. Tony Pavick`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 11470-11525 approx., Feb 3 at 2317, multi-carrier, multi-tones beating against each other, S9+30 amid. What is this? Similarthing circa 17450 is also running now (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 24960 USB, Jan 30 at 2016, bunch of hams in QSOs for Parks On The Air, a sub-thing. Nothing happening on 28+ MHz (Glenn Hauser, OK, WOR)
